

General Information for “ProPower Deodoriser”

ProPower is safe for People, Animals and plants, in case of any irritation rinse/ wash with clean water

If spraying ProPower on fabric / carpet test on an indiscrete area.

ProPower Deodoriser

For General Deodorisation

Dilute **ProPower** 50mls of **ProPower** to 1 Litre of clean water

Increase up to 100mls of **ProPower** to 1 Litre of clean water for intense organic odours

For Carpets it may be necessary to increase ratio to 150mls of **ProPower** to 1 Litre of clean water

For pre spraying when steam cleaning use dilution as per Carpet

Utilise a spray bottle or pump pack for larger areas to apply dilution over odorous area.
Spray liberally

For Deodorising washable items add 100ml of **ProPower** to your washing machine and use an Environmentally Friendly washing powder or for very strong odours ad 100mls to a large bucket of water and soak item.

Once Product is Diluted is has an optimum working life of 10 days

If spraying ProPower on fabric / carpet, test on an indiscreet area.
